Basic Information
for Testing and Certification Requests

Institute for International Product Safety

Please complete the following information as fully as possible to enable us to process your inquiry quickly and efficiently.

1. Your Contact Details

Company name

Contact person (incl. secondary contact / project team)

Street / House number

Country / Postal code / City

Email address

Telephone number

2. Product / Test Specimen Information

Description of the test specimen (e.g. control cabinet, switch, converter, PCB, material)

Type designation

Number of test specimens

Dimensions (L × W × H in mm)

Weight

Does the test specimen contain hazardous substances or liquids? (e.g. pyrotechnics, coolants, batteries)

☐ No ☐ Yes, ...

3. Additional Information for Electrical Products / Components

Rated current in amperes (A)

Rated voltage in volts (V)

Power in watts (W)

Frequency in hertz (Hz)

Type of connection & wire size (e.g. cable, busbar, mm², AWG)

4. Requested Type of Testing

☐ Electrical testing ☐ EMC testing

☐ Environmental testing ☐ Material & detailed analyses

☐ Other type of testing

Product standard(s) (e. g. IEC / EN / UL / CSA)

Test section(s) / Clause(s) (if known)

Known test parameters or test plan

☐ Testing not performed according to standard, but according to customer-specific requirements (please attach detailed information)

5. Certification

☐ No

☐ Yes, please specify :
e.g. CB Scheme, UL certification or marine approval

In case of UL testing/certification. Has UL already been contacted? ☐ Yes ☐ No

6. Additional Information

Does the test specimen need to be operated / monitored using external additional equipment?

☐ No

☐ Yes, please specify:
e.g. converter, drive, power supply unit, motor

Prefered test start date:

☐ Drawings available ☐ Photos available ☐ Product data sheet available

(Summary of detailed information at a glance)

7. Other Information / Notes

Additional information
