**INSTRUCTIONS**  
 If all tests validated by a single technical auditor, enter name and CCN(s) ----  
 No need to reenter TA name on the individual tests.  
 If all validated tests performed by the same technician, enter name -----  
 No need to reenter technician's name on the individual tests.  
 Note 1: If no NCRs are listed, all tests were successfully validated  
 Note 2: "Scope Status" - Initially all tests are marked "A" as active. Use options below to mark tests with an appropriate option a, b, or c:  
 a) Insert label "Add" if a test is added during this assessment  
 b) Insert label "Remove" if a test is removed during this assessment.  
 c) Insert label "X" if a test is validated.  
 Note 3: "Accepted for witnessing by LSV" is for CTF only and insert Label "LSV".  
 Note 4: "Standard Edition" includes all editions of standards used by the lab.
